# COMMERCIAL.

OFFICE OF THE BEE,
Sunday Evening, July 20, 1865.

There has been some excitement in the Cotton market during the past week, owing to the accounts from Europe, reporting the conclusion of peace, but it has not materially affected the business on a basis of quotations. Sugar and Molasses have sold very freely at full prices, but the supply is now reduced to a low point. In Tobacco the transactions have been limited. Flour and Provisions have been extremely dull, while Grain has been in moderate request at provision rates. Freights have advanced, and Steam generally has been firm.

Yesterday morning we published the Europa's advices, embracing Liverpool dates to the 15th inst. They reported an active demand for Cotton, with sales of 107,000 bales during the week, at an advance of ⅛@¼ d. Middling Orleans closing at 71¼ d., and the market closing firm. The public funds, however, had declined, and Consols closed at 89¾ for the March and Shares Canada and Illinois 6 to 8 premium. Breadstuffs and Provisions at the Liverpool market were dull and drooping.

Two bales of Cotton of the new crop, the first of the season, were received from Texas on Wednesday night, the 27th inst. One bale was raised on the plantation of Mr. William Chappell, Washington county, and consigned to Messrs. J. Van Benthuysen & Co., and the other came to Messrs. Jas. Connolly & Co., and from their plantation was not stated. The first arrival last year was two bales from Texas, on the 25th July.

COTTON.—Arrived since the 23d instant, 966 bales. Cleared in the same time for Liverpool 3610 bales, Havre 3,570, Genoa 136, and Boston 250 bales; together, 7,612 bales, making a reduction in stock of 6,646 bales, and leaving on hand, including 11 on shipboard not cleared this day, a stock of 82,966 bales.

The market opened on Saturday with a good demand, under the influence of the Arra's advices, which reported an armistice between the contending powers in Europe, and the sales of the day amounted to 3,350 bales, at very full prices. On Monday buyers evinced forward was still more spirit, and took 6500 bales at an advance of fully ⅛@⅜ over last week's quotations. On Tuesday, with a reduced supply and still higher rates claimed, the business fell off to 1000 bales, but on Wednesday the demand was renewed, and up to noon some 2500 bales were sold, when operations were stopped by the announcement of the Europa's advices. Yesterday, with a poor assortment and adverse views on the part of factors, only 1000 bales were sold, and to-day's sales embraced 600 bales, making a total for the week of 13,400 bales, the market closing at the following advanced quotations

The market has exhibited but little animation during the past week, the stock being reduced, and in fact every section of country abounds in persons, patent or known, who have been removed from alarming and even distressing diseases of the kind in question. When once tried, its superiority over every other remedy of its kind is too apparent to escape observation where the trial is ever known, the public no longer hesitate what medicine to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many other remedies thrust upon the community have failed and been discarded, this has gained friends in every trial, conferred benefits on the afflicted that never can be forgotten, and restored more to numerous and too remarkable to be forgotten.

## MEDICAL.

AYER'S

# CURE,

FOR

Consumption, Pneumonia, Bronchitis, and Pulmonary Complaints, Chronic Coughs, Colds, Whooping Cough, Croup, Asthma, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases arising from a disordered condition of the lungs and throat, such as originating in bilious derangement, and which if neglected lead to consumption and a premature grave.

No compound ever has been found to equal it in the cure of all affections of the throat and lungs. Such has been its uniform success in the practice of many years, that its fame is world-wide. It is unnecessary to do more than to mention the fact that it is in use in every country where there is a civilized people to be found. Nor is it in use only as a remedy to be resorted to when other means fail, but it is the best remedy that can be employed for the cure of the above complaints. Prudence is better than cure, and when the first symptom of any of the above diseases appears, this remedy should be taken, and thus the most dangerous consequences may be prevented. Keep it by you for family use, and for the protection it will afford in sudden attacks to which every one is liable in this changeable climate. Every body knows what Cherry Pectoral is, and we need not publish certificates of its cures. Its composition is known to the medical profession, and its reputation is established by the experience of those who have used it in their practice, and by the people in the neighborhood where they live. Ask your neighbor what he knows about it, and he will tell you to use Ayer's Cherry Pectoral, and you will be cured of your cough, cold, influenza, or whatever complaint you have, or you will be told why it cannot cure you. Such confidence have the people in its virtues, that they will have no other. Their recommendation is the best guarantee we can have that it will do for you what it has done for others.
