L. MILLER'S HAIR INVIGORATOR,

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the Hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or energy in the roots remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequaled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this valuable preparation have induced designers of that one thing in daily necessary to satisfy a discriminating public of its superior qualities over any other preparation of the kind in use. It cleanses the head entirely from *dandruff* and other cutaneous diseases, causes the hair to grow luxuriantly, restores it to a thick, soft and flexible appearance, and also where the hair is becoming and thinning. It will give strength and vigor to the roots of the hair, and cause a new growth to spring up where it has become bald, causing it to yield a *fresh* and *new* crop of hair.

There are hundreds of ladies and gentlemen in New York who have used this wonderful article of the Hair Invigorator, when all other preparations had failed. It has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will, certainly *restore it to its original color*, and will certainly *restore it to its original beauty*, giving it a dark, glossy appearance. It is perfect in the toilet and a Hair Restorative it is particularly recommended to. Being an agreeable fragrance, and the most fastidious it affords in *dressing the hair*, which, when applied with the fingers only, is sufficient, and required form so as to preserve its place, whether plain or in curls—before the great demand for it by the ladies as a *standard article of the toilet*, which it now is without, the price place it within the reach of all, being

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the fact of his preparation, in case where the children's hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it improves any impurities that may have been connected with the scalp, the removal of which is necessary both for the health of the child and the future appearance of its hair.

CAUTION.—Be sure genuine without the fac simile of LOUIS MILLER before the name, and also L. MILLER'S HAIR INVIGORATOR, N. Y., blown in the glass.

Wholesale Depot, 56 Dey street, and sold by all the principal Merchants and Druggists throughout the world.

Liberal discount to purchasers by the quantity.

I also desire to call attention to the Ambrosial Soap.

New and Improved Instantaneous LIQUID HAIR DYE,

which, after years of scientific experimenting, I have brought to perfection. It is Blue Black or Brown instantaneously, without injury to the Hair or Skin. Warranted the best article of the kind in existence.

PRICE, ONLY 50 CENTS.

AYER'S SARSAPARILLA

A COMPOUND REMEDY, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, combined with other substances of still greater alterative power, so as to afford an effective antidote for the impurities of the blood, which cause the various forms of scrofulous disease that afflict the human family. Hitherto the public has had no remedy worthy of its confidence, and which could be relied on to do even the little that was claimed for it. Imposed upon by large bottles containing little else than water, sweetened and colored, and by the use of which the system was drenched with mercury, the patient has suffered all the evils of the double disease, the remedy and the mercury. Of late, the public have been more cautious in their purchases, and have come to look with distrust upon the large bottle system. Many of the best men in the profession have denounced the use of mercury in any form, and the reaction has fairly set in against the Sarsaparillas. Still, there is a confidence felt in the Sarsaparilla, when disease of the blood is to be combated, which is not felt in any other remedy, and this confidence is not misplaced. Sarsaparilla has virtues which entitle it to the full confidence it has enjoyed. But, in the condensed extracts which have been made, the full value of the article has been destroyed. The effect of the process by which they are made is to expel the volatile principles of the plant, which are the most active and essential. The undersigned has been for many years in possession of a highly concentrated extract of Sarsaparilla, which, in all cases of chronic constitutional disease, has produced the most surprising results. Thousands have been restored to health by it, who had been long treated in vain by physicians, and who had given up all hope. Many remarkable cures have been made by it, of diseases which had baffled the skill of the most eminent practitioners. Its power to cure the severer forms of scrofulous disease is not equaled by any other preparation we possess. It is the only remedy which has ever produced any decided effect upon Syphilitic Diseases, and for purifying the blood it is unrivaled. Its presence in the system is soon made manifest by the rapid subsidence of all eruptions, and the healthy appearance which it induces in the countenance. Many of the most wonderful cures of this remedy are to be found in the practice of Dr. Ayer, and in the vicinity of his residence, where he is well known. Innumerable other cases, scarcely less remarkable, have been performed by this remedy in all parts of the country, and the aggregate of its cures is literally beyond computation. Many of these cases have been published in pamphlet form, and may be had of the agents below named, gratis. Some of the most remarkable of these cures are the following:

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Tetter, Salt Rheum, Ringworm, Boils, Blotches, Sores and Ulcers, Dropsy, Female Complaints, Uterine Obstructions, Leucorrhœa, Irregularity, Suppression and Indigestion, Erysipelas, Rose or St. Anthony's Fire, Neuralgia, Rheumatism, and all forms of complaints arising from impurity of the blood.

This compound will be found a great promotor of health, when taken in the Spring, to expel the humors which lurker in the blood at that season of the year. By the timely use of this remedy, the severe disorders are clipped in the bud. Multitudes can, by the aid of this remedy, avoid the usual sickly season by a thorough renovation and cleansing of the system, when otherwise sickly constitutions indicate its necessity in the autumn. No one can judge, unless they have taken it, how much disease it has been the means of preventing, and how much suffering it has saved the system from, during the prevalence of the sickly season.

Dyspepsia, Liver Complaints, Disorders of the Stomach, Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of LIVER DISEASE, whether the result of local disease or of the continued disinfection of corrupted blood, a thorough course of this medicine, before the trial of other catharties has proved necessary to the extent which an exemption to our written assurance would render incredible. Invalids who have tried other remedies in vain, and have become forgotten in their own neighborhoods, have abundant proof furnished in the hopeful health of a return to a protracted friend in a distant land. Some of the most startling of these cures are attested of female suffering, and of the severest victims of spinal disease. Cases of rheumatism, of critical character, and that complicate the most distressing and dangerous forms, have found a cure for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for nausea familiar to medical men, the exercise of this preparation of iron must necessarily be salutary, for, on the principle of corrosive sublimate, without the mercury, it acts and corrects; and gently, regularly operation, and therefore, invigorates the whole system, without the over being excessive purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy in cases, again where the stomach refuses to digest all ordinary specific actions, by dispersing the tonic tendency which it imparts.

In DYSPEPSIA (innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for a cure, and in the most obstinate cases a perseverance for a month.

In disturbed DIARRHŒA, even when advanced to DYSENTERY, confirmed, consisting, and apparently malignant, the effects have been equally decisive and speedy.

In the local pains, loss of flesh and strength, debilitating consequences, and hectic fever, which usually indicate INCIPIENT CONSUMPTION, this remedy has elevated the spirits of friends and physicians in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, the medicinal iron has had more than the usual success, and has unanimously balanced propositions of bodies without any visible or local remedial action.

The objection of females cannot be too confidently invited to this remedy and restoration in the same powerful and unfailing manner.

In RHEUMATISM, both chronic and inflammatory, in the bilious remittent, and in the autumnal intermittent, variably well reported, both as alleviating pain and restoring the curative and action of the joints and muscles.

In INTERMITTENT FEVERS it is most accurate to say, it is unequaled and unprecedented. It has been given in the new settlements of the West with painful success of the most distressing cases.

No remedy has ever been discovered in the whole list of the materia medica, equally certain and prompt, and so perfectly harmless in all cases of fever, whether of the pestilential, bilious, remittent, or intermittent type, and no remedy has been discovered, with an equally powerful influence, which is so pleasant to the taste, or so safe to be administered to children, or the most delicate females.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all the principal druggists everywhere; also by dealers in medicine throughout the world.

Price $1 per bottle; Six Bottles for $5.

AYER'S CHERRY PECTORAL

Has won for itself such a renown for the cure of every variety of Throat and Lung complaints, that it is entirely unnecessary for us to publish the evidences of its virtues wherever it has been employed. As it has long been in constant use in this section, we presume there are few more than assure the people it is kept up to the best it ever has been, and that the skill and care in its preparation which has obtained for it such unbounded confidence and such wide-spread reputation as a remedy for the relief and cure of the afflictions of the throat and lungs, is unremitted. Nor will it be. Such a remedy is required by all classes, and in all climates, and it is for their relief all it has ever been found to do.
