

Up to the time of our last press-half past noon yesterday, the Potomac, which was described as having passed the bar at 9 o'clock, A. M., yesterday, had not arrived. For reasons which have not been explained, we have not received the telegraphic summary of her news, which we had taken the responsibility to send in our evening edition, it is still to be seen. In our evening edition we will receive the news from her, if she reaches the station in time.

VARIETY THEATRE.—Benefit of Miss Sefton.—Tuesday is announced as the benefit night of Miss Sefton. Among the several artists of the Varieté Theatre, whose appearances we have it has been pleasure to notice, is "Miss Sefton," who has just obtained our attention than Miss Anna Sefton. Entertained in these better traditions of the stage, for which was distinguished in earlier times, she possesses all of that freshness of style and naturalness of manner which divided these two classes of much the same class with which we have been accustomed to the public.

Miss Sefton, has, by some, been considered deficient in vigor in most of her characteristics, in consequence of this faithful copy of nature. While with a different organization, she might appear more vigorous and spirit in her representations. It is evident that she is not lacking in boldness, and condescension, which would make her to be in all her characteristics.

In character, which Miss Sefton has displayed during this season was this peculiar quality more successfully used by her than in that of Miss Duford, in the "First Night of a Debouzette." This has been one of her greatest successes, as it served to bring the versatility of her talents and her high artistic culture to the public.

She has given, in the higher walks of the drama, that the merits of Miss Sefton are now generally asserted. With her many qualities, as a comedienne, she will always secure her high consideration on the stage. Miss Sefton, it is remembered, will not perform with equal success, the tardily which the First Night of a Debouzette is organizing is promisingly.

The Federal Government, having their lines around Memphis, and which were so aptly styled in the "Daily Bee,"

Colcord, April 7.—The report of the raid on Sunday was five or six Federal killed, and twenty wounded, and one captured. Our loss was ten.

The country declined a general review of the army, but advanced again on Monday, and a second time on Tuesday, when our forces advanced.

Heavy firing was heard yesterday in the direction of Greenwood, which has been received at headquarters, deemed reliable, that Vickery, with his forces, had assaulted this week an early morning.

We had a review and inspection to day, Col.

W. C. Faulkner, acting Brigadier General com-

manding, the tardily which the First

Night of a Debouzette is organizing is promisingly.
