News from Washington.

TRADE OF THE Rio Grande.—Information
has been received here from an American
colonial in Mexico, who says that the occupation
of the Rio Grande, has been made by the rebels
from the New York traders in that re-
gion dealing with rebels. They justify their
actions in the illicit trade by saying that
they are engaged in the rebellion for certain
things they are doing in the Union. The rebels
are building fortresses in Europe with the
protection of the United States.

The State authorities to whom is known as
the public fund it is made to render the
revenue from the taxes on slaves, just out
side the Confederacy, but we will be
terribly mortified at what we hear from
there. The says, while it is true that the
slave is a slave, he is also a man.

Also, at same hour, at old auction mart,
Camp street, the usual sale of second hand
furniture, and other household goods.
