The Picayuse published last evening a summary of news taken from the Jackson Missistepus of the 12th, from which we copy the following. The sammary makes up the complement of our Northern advices, as we published substancing. The excitement of the election is over, and the war again claims the undivided interest of the people. The battle at the polls is wen, that in Virguina will shortly follow. While the struggle at the ballot box has been suprossing all minds, the final arrange ment have been perfected for the great military drams in which the arrange of the country is recalled to the war, again the movement screek the Potomac plays so prominent a part. The curtain rices, the attention of the country is recalled to the war, and the movement screek the Potomac plays as prominent a part. The demonstruct of the drams now begun will be the capture of Rich mond.
