CITY INTELLIGENCE.

THE REGISTRATION.
Our readers have noticed that the time for registration has been extended to the 31st of May. The step on the part of General Butler will meet with approval on every side, and we have to express our thanks for the service rendered. Our citizens are dispirited, they do not appreciate the purposes of the matter at stake. At the present moment we should have not less than five and twenty thousand voters registered in this city. At the same time we are sorry that the extension of the time was necessary. Our citizens are dispirited, they do not appreciate the purposes of the matter at stake.
