Radical Misrepresentations Refuted.

Our contemporaries in North Louisiana indignantly repel the slanders uttered against them and the accusations of lawlessness and violence and crime which have been so freely heaped upon them. The Ouachita *Telegraph* referring to the occurrence at Rayville, near Monroe, out of which the Radical organ of this city on Saturday based its most capital, says:

> We have learned facts that go a long way to palliate the crime. Think of a white man with a black woman, whom he calls his wife, going about the streets boasting she was as good as any woman in town! Think of sentiments being placed out by this fellow to protect in this unhallowed connection, and the stopping of citizens at night by these unpatriotic sentinels, and ask yourselves if there was not some reason for popular indignation.

We published in our last issue an account of the partial destruction of the *Raid*. We regret, and every Democrat and conservative in the country regrets, that it happened, whether by Radicals for political purposes or Democrats from animosity.

The circumstances attending the destruction, as published, go to show that there was no concerted action, and that it was some "mysterious" individual, and what his motives were nobody knows.

The *Raid* office lived through times when the e was greater indignation against it and its editor than at present. Why destroy it now? Isolated acts are taken and paraded as evidence of the general conduct of the people.

If we were to take the trouble to collect all of the outrages and crimes that the Radicals have committed since they came into power in this State we would have a book of horrors.

We have as a law abiding community in north Louisiana as any where in the United States. No honest man is in danger of either life or liberty. We will venture to say that any man, no matter what his political opinions are, can travel throughout the country unarmed, and unmolested. The people ask only to be let alone, and not to stir animosities between them and their former slaves. Let them live in peace and amity, as they desire. If the Radicals would stop their ceaseless cry about outrages, our section would have a better name abroad.

They have for political capital, purposely created the impression that life and liberty are unsecure in the South, and that Union men live here in constant fear.

The Franklin Parish *Sun* is equally emphasic with respect to the accusations made against the people of that Parish. Our contemporaries all agree that these disorders about which so much has been said have been instigated by wicked white men—that a systematic attempt has been made lately to incite the negroes against their white employers. That this has been done with a view of influencing the approaching contest cannot be doubted. There has been no motive on the part of the white population, more than at any other time to bring about disturbesses of the public peace.

We subjoin the article from the *Sun* above referred to:

Our Parish Affairs.

WE NEED NO TROOPS.

[From the Franklin Parish Sun.]

It seems by the proceedings of the body called the Legislature of the State of Louisiana, that the members are very much exercised by the disorders, outrages and murders it is said are being perpetrated in North Louisiana—the parish of Franklin being particularly designated as one of the points of their occurrence—and it is proposed to send up troops to put a stop to them.

Now we are as much opposed to violation of law or the commission of acts of violence as any man living, and would not and never have hesitated to denounce them, let who would, be their authors, when the circumstances attending them demanded it at our hands. It is true that acts of violence have recently been committed in this parish that every good man must deplore. Poor Conway was the first victim of a series of murders that have occurred since the April election. The temper of our people was fairly put to the test in his case, and showed that they were as law-abiding as any people on earth, for he had been a sad cat confounder in the case of many of them and was a favorite and boon companion of most of the young men now growing up and exercising public rights. For him to work his cause feely and cowardly murdered, is undeniable. Yet his friends, determined and resolute spirits as many of them were, instead of avenging his death which they could easily have done, left his murderers to atone for their crime at the hands of the law. But they were daringly and forcibly removed from jail, and nothing was said about it, because the murderers and rescuer belonged to the ruling political gang. But now that a member of that party—B. S. Small has been killed, a tremendous hue and cry has been raised about it. It is true Mr. Small was a strong Radical, and the community have for some time been very much incensed against him and Isaac H. Crawford and one or two others, but on account of their politics, but because it was believed they were stirring up the negroes against the whites and urging them to arm themselves, and likewise because it was believed that Small and Crawford, if they did not advise it, were knowing to the intended murder of Conway by the *Wards*, without giving him any intimation of it. In fact, Small, who was a professed friend of poor Conway, said he did not intend to warn him against the wards, but seeing him going towards home just before he was killed, thought it would be useless as he would be out of their reach. It is well known that the Wards slept the night before the murder in Crawford's office, and committed the deed with Crawford's gun.

We mention *these facts*, to show the condition of the parish, and the position Mr Small had placed himself in. *We are satisfied that our people are both law-abiding and peaceable, and we believe that a man is as safe here as any where else, whatever political views, provided he does not conspire against the peace of the community.* But it is the right of every man and every set of men to adopt measures of self protection. It is expected that a man's life is to be threatened and he calmly endure it? Yes with the exception of case or two growing out of personal or family difficulties, no act of violence or lawlessness has been committed here upon any one, that the party or parties did not bring upon themselves by deeds or threats against individuals or the community. And here we will make one remark touching a partizan case about which much has been said—that of Mr. Elias Carter. While troops were stationed here before, the first negro meeting was inaugurated and held in the Court House. Being a new thing, it naturally provoked considerable merriment, and some angry feeling likewise, and two citizens were arrested and locked up in our fashionsome, dark and suffocating jail in hot weather, on the charge of interrupting the meeting! It was said that Mr. Carter took an active part in the arrest of these citizens. They might have contracted disease and death in jail but for the kind feeling of the Sergeant commanding, who had them transported to his barracks. Like convicts they were marched between files of soldiers over the court house square, packing their beds on their shoulders, and were kept as it were in military confinement for some time, and not allowed to speak to their friends or anybody. Such tyranny shocked all who saw it, and it is probable was in some measure the cause of Mr. Carter losing his life.

We sincerely trust the General Commanding will not comply with the request made of him by a few Jacobites who wish troops to be sent up here in order that they may rule our people with more despotic sway. *Troops would do more harm than good. They would be useless as an assistant in the arresting of any parties in any way implicated, while a new element of strife would be introduced all around.* The whole country, the General must be well aware, is going and is bound to go through a probation incident to the new order of things. Here, the worst of it has been passed through, and peace and quiet and good order, under a wholesome public opinion, reigns almost supreme, and under its influence all men, white and black, are secure. *Troops are now not needed—then will create new strife. Disorder is what will be the harvesting that a few scheming men are trying to bring about.*

GREAT VICTORY IN KENTUCKY.—This gel. last old State leads off in the elections, and is reported by telegraph to have gone Democratic by a majority of sixty thousand. There is no room here—no opportunity of alleging fraud. This victory promises a like overwhelming defeat of the Radicals in all the Western States. Well done, Kentucky. You are worthy to have sprung from the mother of States and of statesmen.

The war pressure has been so great in Brazil that the Emperor and the Empress have contributed a quarter of their income to help the public purse, and the other members of the Imperial family one-fifth of theirs.

OFFICE 73 CHARTRES STREET. NEW ORLEANS, WEDNESDAY MORNING, AUGUST 5, 1868. Vol. XLI.—Whole—14,511.

CITY INTELLIGENCE.

Reportorial Repertory.—Mr. W. G. Mitchell has been appointed Commissary of the Dryades Market by the Finance Committee.

Willis Rollins, the colored Democratic Speaker, is duly provided with meals, &c., by the Constitution Club, aided by other clubs.

A man by the name of Adam Loose was knocked down the other night on Erato near Constance street, and robbed of $150 in money, a gold watch and some valuable papers.

Some negroes concluding that treasure was hidden in some unoccupied premises corner of Erato and Magazine streets, broke in the door, tore up the floor, and went to digging for gold. The police interrupted their proceedings.

Spectacles Lost.—A pair of gold-rimmed spectacles belonging to one of our friends of the *Tribune* office was lost Saturday night between that office and the corner of Magnolia and Melpomene streets, or somewhere thence by way of Keller's new market and Felicity, Hevelee and Apollo streets to Fourth street. The spectacles are prized for family reasons, and any person returning them will be properly rewarded.

The Colored Spouters.—Willis Rollins, the colored Democratic speaker, who has been mobbed on several occasions, is making his headquarters at the rooms of the Constitution Club. He will speak on Lafayette Square to-morrow night, as will also, we presume, Scott Jordan, another colored speaker of some reputation from Baton Rouge, who arrived in the city yesterday, and is also, we believe, under the care of the Constitution Club.

We have had the pleasure of receiving a visit from Willis Rollins, that colored orator, who was accompanied by John Henry, J. Seasnell and Capt. Wm. McKeever, known as "Captain Bill," of the 10th Mississippi Regiment, also, Tim Conners, driver of carriage No. 124, all good Democrats.

Sojourner Knights.—There was a large meeting of the Knights last evening at their rooms corner of the Gem Saloon—John N. Tully, Esq., President. Arrangements were made for a procession Saturday night, to receive a banner and wreaths to be presented by ladies of New Orleans. Invitations were extended to the Press and to the Marshals of the various Clubs to join in the procession.

Hancock Club.—This Club held a meeting last evening on the Hawkins Saloon, corner Common street and Theatre Alley, for the purpose of perfecting its organization.

The officers of the Club are as follows: E. S. Drew, President; W. T. Jewell, First Vice President; F. A. Peterson, Second Vice President; H. Ellis, Secretary. J. Pinckney Smith, Treasurer.

Finance Committee are Messrs J. M. Scott, W. J. Zenis and S. F. Pennington.

Executive Committee are Messrs. Jno R. McGaughey, D. H. Feger and G. B. Johnson.

A special committee was charged with the duty of soliciting members for the Club, and and in organizing auxiliary Colored Clubs.

This Club already numbers about two hundred members. It meets again next Tuesday night.

Fifth Ward Democratic Club.—This Club announce a grand torchlight procession on Saturday evening next, and invite all the Democratic Club of the city to join them. They meet corner of Bayou Road and Carondelet Walk.

"Manic Mob of '68."—This is the name of a new club, formed last night, at No. 10 New Levee street. At the time other emigrations compelled us to leave Hon. G. H. Braughn, of Kentucky, in the chair, and had been chosen President, and addresses had been delivered by Hons. A. Sambola and E. L. Jewell.

Third Ward Club.—There was a large meeting of the Central Third Ward Club, on St. Charles street, last night, at which Hon. Wm. Col. Van Zandt presiding. Speeches were made by E. H. McCaleb, Esq., Hon. W. Pope Noble, E. L. Jewell, Esq., and Hon. Wm. Roy. Mr. Roy's address was particularly practical, and exerted a fine influence evidently on a number of colored persons present. The meeting adjourned till Friday night, when, we understand a colored club will be organized.

Eighth Ward Club.—The two Clubs of the Eighth Ward met in a fraternal spirit last brening for the election of two Representatives to the Parish Executive Committee. The notice was short, but never has the old Eighth seen such an outpouring of her citizens. The various Clubs of the Ward were represented by their full strength, and all sectional difficulties, personal feeling, and things of that sort, are to be forever buried. Think of four hundred votes being cast in a Ward, where but few Democrats dare call themselves "their own" a few months ago. The parties elected in the Eighth Ward to represent the Democracy of that locality are well known throughout the city. No better selections could have been made.

Saying this, we say all we know personally of the men themselves, and all we hope for the Eighth Ward in the coming contest. The following is the ticket elected as nominated to be voted for by the Democracy of the Club—John Delaney, N. A Llambias.

Boy Killed.—Wm Hudson, a boy 14 years old, was thrown into the river yesterday evening at the foot of Esplanade street, and killed or drowned, by another boy, Billy Anderson or "Crazy Bill" as he is called. Anderson, who is a very violent character, was bathing at the foot of Esplanade street, and wanted the boy to hand him his clothes. The little fellow could not find them, and Anderson threw him into the water in a rage, causing his head to strike on a large timber in the river. Anderson was arrested, but the little boy's body was not recovered.

Board of Aldermen.—Meeting last evening. President Markey in the chair.

The minutes of the previous meeting were read and approved.

A message from the Mayor announced the appointment of Braxton Bragg as Superintendent of Water Works, and the names of seven commissioners—already published.

Mr Prados moved to postpone consideration of these appointments one week.

Mr. Shields moved to lay the matter over for executive session.

Mr Doyle favored postponement, because an ordinance would probably be submitted and passed at the next meeting providing for the management of the Water Works.

Mr Shields said that, even if an ordinance would be submitted next meeting, it could certainly not be passed by both Boards and become a law in less than a week, and the moment the ordinance had passed, the functions of the Superintendent and the Commissioners appointed temporarily would cease.

The subject was finally laid over for executive session.

Ordinance of Lower Board, extending the time for loading and unloading barges of the Mississippi Valley Transportation Company from five to eight days. Concurred in finally.

Resolution to appoint Police Jurors to detail two police officers on platforms of railroad depots, to prevent persons from jumping on board cars when in motion, and shall further cause companies to have suitable placards placed at their depots. Referred to Committee on Streets and Landings.

Resolution to shell Josephine street, between Apollo and Liberty. Concurred in finally.

The Finance Committee reported favorably on the resolution to abolish the office of Assistant City Attorney, and that the collection of taxes be intrusted to the City Treasurer.

Mr. Shields stated that the city was an imposition on the people and taxpayers and ought to be abolished, but he doubted whether the Committee had power to abolish the office.

An amendment was offered that the Finance Committee be empowered to apply to the Leg islature to have that office abolished. The resolution, as amended, was adopted.

Ordinance to enforce the payment of all taxes due the city since 1861, the Assistant City Attorney to receive five per cent. on the amount collected and paid into the Treasury. Laid over subject to call, pending action by the State Legislature.

The Finance Committee reported that Messrs. Howell and Mooney, ex-Treasurer and Assistant Treasurer, had failed to appear before the Committee to testify relative to the discrepancy between the Controller's and Treasurer's accounts.

In appearing, however, that the Secretary of the Committee, owing to press of business, had notified those gentlemen only at a late hour, Mr O'Neil, Chairman of the Committee, withdrew this report.

Resolution to appoint a joint committee of two from the Upper and three from the Lower Board to confer with the different street railroad companies on the practicability of establishing a grand common trunk railroad on Canal street. Adopted, and Messrs. Shields and Brady appointed.

Resolution approving the adjudication of the right of way for a railroad on Dumaine, Villere and other streets to the Orleans Railroad Company. Passed over the Mayor's veto. (Mayor Conway refused this simply because he had not had time to look into the merits of the resolution and in order that it might not become a law before he had examined it.)

Joint resolution to extend the provisions of the act of July fourth, eighteen hundred and sixty-four, limiting the jurisdiction of the Court of Claims to the loyal citizens of the State of Louisiana.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of the act of the fourth of July, eighteen hundred and sixty-four, entitled "An act to restrict the jurisdiction of the Court of Claims," is hereby extended to the loyal citizens of the State of Louisiana, anything in the act to declare the jurisdiction of the Court of Claims, to restrict the jurisdiction of the Court of Claims, and to provide for the payment of certain demands for stores and subsistence supplies furnished to the army of the United States," passed February nineteenth, eighteen hundred and sixty-seven, to the contrary notwithstanding.

A CONSERVATIVE RE-ENFORCEMENT.—Among the new members sworn in yesterday were Mr. Tift and Gen. M. H. Young, of Georgia. These gentlemen must be carefully discriminated from the class of rapscious carpet-baggers who have foisted themselves surreptitiously into public councils. They are native Georgians, and men of character and intelligence. Both are in full sympathy with the Conservative party of the country, and will faithfully represent the true interests of their people.

The admission of Gen. Young was favored by several leading Radicals, to whom we are bound to accord credit for the candor which has led them, in this instance, to separate themselves from the more bigoted portion of that party. We congratulate Gen Young upon his escape, notwithstanding the prejudices which resisted his admission, and predict for him a useful career.—*National Intelligencer.*

"A FRAUD ON THE PEOPLE NORTH AND SOUTH."—Somebody telegraphs from Washington that the newly admitted Congressmen and other Southerners have been conferring with "Republican leaders," and have decided that it will be best for Presidential electors in the reorganized States to be chosen by the Legislatures, as South Carolina used to choose hers. The argument for this monstrous proposition is that it will prevent all disturbances and frauds, but it will be itself a fraud on the people, North and South. We hope no Republican worthy to be called a leader has given his sanction to such nonsense.—*From Sprinefield Republican, (Rad.)*

Aldermen Wynne indignantly resigned the chairmanship of the Committee on Police and Health. Postponed until next meeting.

The ordinance granting to Paul Waterman & Co. the privilege of establishing floating baths in the river, within the limits of the Second District, was taken up. This ordinance gives the privilege for the period of five years, and was adopted.

The Board then adjourned.

The Late Duel.—The case of Mr. Bonnier, charged with murder in the killing of the late Paul E. Larcache, Jr., in a duel near the city, came up before the court of St. Bernard parish yesterday, and was dismissed, there being no witnesses for the prosecution, except such as had been concerned in the duel, and were not admissible.

LOUISIANA LEGISLATURE.

THIRTY-SECOND DAY—AUGUST 4, 1868.

SENATE.—Lieut. Gov. Dunn presiding.

Mr. Sears gave notice of his intention to introduce a bill to remove the seat of Government to Baton Rouge.

Mr. Todd gave notice of one to graduate the price of State lands to actual settlers and cultivators.

Mr Ray introduced an act to fix the time and places of sessions of the Supreme Court. Read second time and referred.

Also an act providing for the election of Justices of the Peace, and defining their duties in all parishes except Orleans. Read second time and referred.

An act introduced by Mr. Jenks to create a Board of Public Works and appoint Commissioners thereof, was read and referred.

Mr Blackman called up an act ordering a special term of the Supreme Court, the second Monday in October, 1868, in Monroe, for trial of cases on appeal, and made returnable the second Monday in July last. Adopted and sent to the House.

Senate Bill No 31, creating a Board of Registration, came up and was acted on section by section.

Section 9, on motion of Mr. Branghn, was amended so as to allow parties refused registration the right of mandamus through the courts.

Mr. Campbell entered a protest against section 9, as adopted.

The bill then went into Executive session, and on opening the doors, adjourned.

HOUSE.—House met at 12 o'clock M., pursuant to adjournment. Speaker Lowell in the chair. Roll called—41 members present.

McVean, (Rad.) of Caddo, offered a resolution providing for a committee of five, on the part of the House, to inquire into the management and lease to Wm. M. Taylor of the New Canal. Read once and went to the calendar.

Brewster, (Rad.) of Ouachita, offered a resolution providing for the appointment of officers and members of the legislature, from counting within the bar of the House without the written permission of some one member of the House. Read once. No ordinance had passed; the functions of the Superintendent and the Commissioners appointed temporarily would cease.

The subject was finally laid over for executive session.

Ordinance of Lower Board, extending the time for loading and unloading barges of the Mississippi Valley Transportation Company from five to eight days. Concurred in finally.

Resolution to appoint Police Jurors to detail two police officers on platforms of railroad depots, to prevent persons from jumping on board cars when in motion, and shall further cause companies to have suitable placards placed at their depots. Referred to Committee on Streets and Landings.

Resolution to shell Josephine street, between Apollo and Liberty. Concurred in finally.
