he governments of the value.

Hinten, were established by the application of the stand only because they are isale of Lonisiana succeeded in framing and pluing a Constitution to onit themselves, used that we now live. How they have admired that government we all know and feel, anciell rim, State and individual starse us in face. The question is can it be arcted? It is is election shall risude, as we have doubt it will, in demonstrating that this ority has been reversed, and that by a fuller facing regime to compliance of the control of the cont Reducing the Constitution to sait themselves, under which we now live. How they have admirable we have little doubt it will, in demonstrating that this majority has been reversed, and that by a fuller and a fairer registery the conservative vote now preponderates, it will be apparent to all the world that it ween the pint of the North many in the constitutional Convention was assembled—that its means the pint of lawful means the Constitution and force corrected to day and to morrow at noon. Miss Locally we have a choice one, embrarile gages and were over by Recorder Becker, was questioned in the time work is not binding any longer than the time necessary lawfully to effect its annulment. To the all important minde will agree. Bet the question then presents itself, how shall we set assiste the Constitution and free curselves from its consequences? Some have said, call a Convention were to determine that an election should be held for the purpose of voting spon a proposition looking to a new organic law, under rention of the people to deliberate upon curfuture course. Certainly the people's right
peaceably to seemble is guaranteed by the
quadamental law, but suppose such a Courention were to determine that an election should
be held for the purpose of voting upon a proposition looking to a new organic law, under
whose supervisions would such an election be
held? We cannot expect the Governor and
Legislature to order or constanance a moreto the behing the contract of the course of the course of the course.

of the State. Are we then completely tied up alease they will act, and must we wait until by ordinary legal methods and according to the Completation among that instrument and replace our present State officers by others whe will be better able to represent the people! The question is an important one and deserves to be cantiously and temperately considered. We do not see why public opinion might not, in a perfeculy peaceable and lawful way, both people in a convention, with a view to bringing our Constitution more those one our rather, so set to compatitude the people in a convention, with a view to bringing our Constitution more into conformity with the view of the majority.

held by virtue of existing laws and an-der, the superintendence of the officers

plainly and sarnestly expressed by those who be now here there must be some legitimate method of ano-amplishing their will, despite the opposition of those authorities.

The New York Times, of a late date, in the course of a reply to the query propounded to it by its meighbor the World, "How is Grant going to give us posce?" throws some light on the rubject and the probable policy of General grant's administration with respect to the Southern States. It says:

The alsevien of Grant, like the re-election of Lincoln, will give the country North and South to understand that the reconstruction is was and the State Governments organized ander their state. It could be a subject and the probable policy of General to the Southern States. It says:

The alsevien of Grant, like the re-election of Lincoln, will give the country North and South to understand that the reconstruction is was and the State Governments organized ander their state. It says the people who live under them shall be missed by their precicial operation that they are not and word the state of the State whell shall have a fair trid; it they hall not have them shall be missed by their precicial operation that they are not any operation and the State Governments or and the state of the State half shall have a fair trid; they shall not a state accessities and the probable policy of control of its Southern land would have better liked a winder and printing way was the only way by which I could try to lead you out of your case is not one which admired from the proports him can be people of the State when layed the country which is controlled to the state when layed and printing way was the only way by which I could try to lead you out of your case is not one which admired the proports him can be people of the State when layed and printing way was the only way by which I could try to lead you out of your case is not one which admired the proports him can the people of the State when layed and printing way was the only way by which I could try to lead you out r isws were made, by men chosen for that pose by the great body of the p-ople for om they exist. And those who made them

is a see. Their constitutions were framed, laws were made, by men chosen for the very made, by the great body of the p-ople for me they exist. And those who made them they come by the great body of the p-ople for me they exist. And those who made them the same right to amed, modify or charge, the they had to mate them. There shall be them the same right to same of the Union and like and the same right to ment aright. The same right to make them as they see fit—to change their contions at with, and to manage their control to Union States.

In these own and explanations, like all the rances of the Timer, seem a first sight to wry fair, but when we come to examine a, we do not see any way of escape from difficulties, pointed out. It promises that will of the people' will be regarded, but middle the same to protect the same to participate in legislative proceedings out the aid of the few white men who was to behim. It says "the Southern State reached by Congressional agents, the mind, the sharing nothing to do with them. If we to rely for a change upon the same agencies creased these governments, we shall have raits a long time before that change will be used to require the mind, the white points are also than the character of the white popule of the total provide the provide at the sharing nothing to do with them. If we to rely for a change upon the same agencies creased these governments, we shall have raits a long time before that change will be used to require the public and the character of the white popule of the provide and the same provide at the should about the sharing nothing to the white popule of the provide and the few to result the complete of the provide at the fourth of the provide at th
