All bills with regular advertisers shall be rendered monthly.

Weekly Edition.

TERMS—PER YEAR.....$5.

NEW ORLEANS:

FRIDAY MORNING, NOV. 10, 1871.

THE CITY'S CONTRACT WITH THE FIREMEN'S ASSOCIATION.

Our cotemporaries have expressed their opinions with regard to the advantages of the volunteer system, in providing for a firemen's organization for the city of New Orleans. These opinions have been drawn out by the measure introduced at the last meeting of the Common Council which contemplates a termination of the contract now existing between the city and the Firemen's Charitable Association, a measure which we regard as ill-timed and inopportune.

We do not now enter into a discussion of the merits of the two systems—the paid system and the volunteer—but content ourselves by saying that we know of no reason why the latter should be abandoned for the former and so far as this city is concerned we have yet to see an argument going to show the advantages to be derived from the proposed change.

It refers to the firemen of New Orleans who are a most self sacrificing and useful body of men, and who have rendered to the real estate and property owners for many years services of inestimable value, to them these services in mind and not to depreciate the value which has up to this time existed between the city and the Firemen's Association, and which has been so advantageous to the city, without due and proper regard to them. The body is composed of the bone and sinew of the population, having representatives of all classes and professions in its ranks. They possess the confidence of our people to an eminent degree, and attempt to reduce and break down its employment, contrary as their services are given without remuneration or stakes lavishly upon the feelings of their numerous friends. If they had ceased to assert themselves, it might be for the public interest to devise another system, but no complaint has to our knowledge been made on this score. We are therefore driven to the conclusion that the motive of those who advocate the adoption of the ordinance presently before the Council is to reduce the expenses of the city, which proposition we think would be the veriest folly in the present crisis. Make haste slowly."

THE FRENCH OPERA.—A typographical error in our issue of yesterday made an announce *La Favorite* as the opera to be performed on next Tuesday evening. It should have read *La Traviata*. Report of *Lucrezia*, in which character Madame Nobili will make her re-entry upon the stage of our Opera House, was one of her best impersonations, and the admirers of this talented lady will not fail to extend to her on this occasion a well-deserved welcome.

BUSINESS CARD.—In our advertising columns to-day, will be found the card of Messrs. Robertson & Co., general auctioneers and commission merchants in this city. Having been for many years with Messrs. D. Dellaven and J. W. Robertson, who have an extensive acquaintance with the business and business men in the great cities of the West, with which section of the country to expect to establish mutually satisfactory commercial relations. In their departure we wish them abundant success.

DRESS GOODS STORE.—The attention of our readers is called to the advertisement to be found in the issue of Mr. Jos. Laudis, to-day, corner of Chartres and Common streets, in the St. Charles Hotel. He has moved in this stone handsomely and well adapted for the large supply of merchandise he has on hand. Mr. Laudis has established a well deserved reputation for cheapness and fair dealing, and the public are invited to call and see for themselves.

IN NOVELTY can surpass the wonderful assortment obtained by Michel Lion in his extensive clothing stores, where all kinds of ready-made clothes for men and boys are sold. To offer goods at fifty per cent. cheaper than they can be sold elsewhere, would be perfectly amazing in the proprietor of the store of the "Hundred Thousand Pickets" did not explain the occurrence which permitted him to buy those goods at such low prices that he can afford to let the public share in the profits of the bargain. He had the extraordinary luck to contract with several insurance companies, and to buy from them goods of all kinds, saved from the late conflagration. On these goods at such low prices that he can sell them at the same at 50 per cent. less than the usual prices. To clothe oneself at a cost of less than the usual prices is a problem easily solved by buying his wearing apparel at the store of the "Hundred Thousand Pickets," kept by Michel Lion.

THE NEW FIRE ORDINANCE.—Apparently believe that Mayor Flanders and Administrator Walton in advocating the termination of the contract of the city with the Firemen's Association desire to make political capital by exciting the antipathies of the people. We cannot but think that the alone will be either by the adoption of the measure or by its abandonment. If Messrs. Flanders and Walton do not retrace their steps in the right direction they are likely to lose the credit they have established with the community, while Governor Warmoth, by siding with the firemen shows his appreciation to respect the opinion of the people of New Orleans, which is decidedly against the Firemen's Ordinance lately introduced in the Council.

SIGNOR RANDOLPH PROSPERI.—We perceive from the report of the proceedings of the City Council on Tuesday last, that an ordinance has been drawn up and is before that body granting the right of way for a street railroad from Canal street to Lafayette Avenue, Third District, by the way of Royal or Bourbon street, and returning by the same route. Such a railway has long been demanded by the inhabitants of the Second and Third Districts who have hitherto been confined to the Levee line or that by way of Rampart and Dauphine, a service which has proved to be entirely insufficient for the accommodation of the residents of the second and third Districts. We know of no objection to the granting of the privilege asked for by the parties before the Council, and hope it will promptly receive the approval of the city authorities. A Royal or Bourbon street railway to the Fair Grounds of New Orleans will prove an immense accommodation to the people of the city, as well as to the

A WORD OF ADVICE.—Mothers know by experience attached to the cure of their children. They should use Mrs. Winslow's Syrup.
