45 Years Before the Public.
THE GENUINE
DR. C. McLANE'S
LIVER PILLS
FOR THE CURE OF
Hepatitis, or Liver Complaint.
Symptoms of a Diseased Liver.
PAIN in the right side, under the
edge of the ribs, increasing on pressure
or on a full stomach; or in the left
side; the patient is rarely able to lie
on the left side; sometimes the pain is
felt under the shoulder blade, and it
frequently extends to the top of the
shoulder and is sometimes attended by
rheumatism in the arm. The
stomach is affected with loss of appetite
and sickness; the bowels in general
are constipated; there is a general
feeling of weakness and a dull, heavy
sensation in the back part. There is
sometimes a yellowish tinge to the
face, accompanied with a painful
sensation which ought to have been
noticed. A slight dry cough is sometimes
attended with a general feeling of
weakness and debility; he is
startled, his feet are cold or burning,
and he complains of a prickly
sensation of the skin; his spirits are low
and he will not exert himself; the
case would be beneficial to him, yet
he can scarcely sustain up his spirits
every remedy. Several of the above
symptoms are attended with a
disease of the liver called
AGUE AND FEVER.
Dr. C. McLANE'S LIVER PILLS, when
taken with quickness, are productive of
the most happy results. No other
remedy will give such a prompt relief,
or after taking. We would
advise all those who are afflicted with
this disease to give them a FAIR TRIAL.
For all liver complaints, and a
simple remedy, they are recommended.
