

BOY GROWS SO FAST HE DIES.

His Heart Unable to Keep Up with the Development of His Frame.

George Richard Cordoza, a boy who lived in Livermore, Cal., is dead from an unusual cause. He was 14 years old and grew three inches in less than three months.

George attended the Livermore school, and was an intelligent, well-behaved and bright pupil. About three months ago he began to grow so fast that it was noticeable.

In that short length of time he added three inches to his height, and at the time of his death he was five feet ten inches tall, a man in size, with the face of a child.

His heart was expanding and growing, his internal organs, and particularly his heart, did not keep up with the strain.

A few days before his death the boy complained of pains in his head and heart, and Dr. J. M. Buckers was called. Dr. Buckers saw that it was an extraordinary case, and he called Dr. J. M. Robertson.

SMUGGLING IN PORTO RICO.

Coast Line Furnishes the Best Kind of an Opportunity for This Illicit Trade.

Capt. Shoemaker, of the revenue cutter service, who visited nearly all the harbors in Porto Rico with a view to establishing a revenue cutter service.

NOT KISSED BY CHORUS GIRLS.

ELECTRICITY ON WARSHIPS.

Naval Surgeon Reports That Great Injury is Caused by an Improper Use of the Lights.

One of the naval surgeons has reported against the present system of lighting war ships by electricity. The protest is contained in a report submitted to Surgeon General Van Reypen by Passed Assistant Surgeon E. P. Stone, who has been stationed on board various naval ships, and who is now on duty in Washington.

"I have myself seen several cases in the service which I consider directly due to improper use of electric lights, and which were relieved by using the light properly placed. Dynamo men have been found to suffer from irritation and exhaustion of the retina and have been found on appearing for re-examination to have suffered a serious falling off in acuteness of vision.

This subject is more important in that it is so easily remediable. Ground glass bulbs and proper position of the lights will do away with all the bad effects. As yet laymen do not appreciate the importance nor understand the principles of this subject.

WILL VISIT ENGLAND.

Emperor William Said to Have Decided on a Trip to Several Points in the Island.

There has been a flutter of expectation among society people in London over the announcement that Emperor William of Germany has allowed the fact to become known that he will pay a visit to England next summer, unless unforeseen circumstances arise.
